Message from the Head Teacher

Dear Parents/Carers,

At Christ Church we continue to explore the ways in which we can improve the children's learning experiences. Recently, Mrs Adams, our Maths Subject Leader, attended a presentation on Maths of the Day at one of our local schools. She was so impressed with the concept that we have decided to purchase the programme for our school.

Maths of the Day is an innovative and creative online resource for primary schools, providing complete lesson plans for 'Active Maths', which is designed to change attitudes and raise attainment in mathematics. It uses PE and physical activity as a catalyst for learning. In other words, it exercises mind and body.

So far, the children in Horowitz and Lewis have used Maths of the Day. The children in both classes absolutely loved the lessons. Here are some of their comments:

"I thought the active maths was really fun we saw maths in a new way and a new light." Charlotte H, Horowitz Class, Age 11.

"I loved the running maths lesson because we learnt new things about algebra and we did some PE at the same time. It was the most fun lesson that I've ever had in maths." Lucy K, Horowitz Class, Age 10.

"I really enjoyed the lesson we did. It gave us a new way to do maths. It got us moving. I wish we could do things like that more often." Zoe K, Horowitz, Age 11.

"I really enjoyed the running session we did because we did a 2-in-1 lesson (PE and Maths)." Maiya A, Horowitz, Age 10.
